_____

To everyone listening to our EVPs the ones we are currently posting are from Demented's recorder file 1 there are 5 files on his recorder and there are 5 files on my reecorder. We dont know how long these will take to go thru and will be posting them up as we isolate and figure out what they are saying. How long could this take we have no idea. So please bare with us as we chop and cut out what we all want too hear.

Thanks
