_____

For those of you who saw some strange things happening with the site this afternoon, my appologies. I've been working pretty heavily this afternoon to get the Ghosts & Haunts Radio site up.

Well after about an hour of trying, its finally up. And the first edition is online.

The G&H Radio is also available via a podcast for those who would prefer to subscribe to that.

For G&H Radio you can CLICK HERE or select it under the Features section on the front page.
