Sound Byte Uploads

Posted by crystalcross - 01 Feb 2011 02:53

_____

If you have an EVP and you wish to share it, there are two ways to do it. One is to make a video file out of the sound byte and upload it into our Video gallery.

The other option is simply to upload the EVP sound file as an attachment in a message. I'm uploading an example of one in this message. Happy hunting, and please share your experiences.
