Spain is a place full of amazing places, full of legends and tall tales. I tell you what would happen in big. In Fresno you can access quietly, take pictures and enjoy all the people. There are other sites where you have to ask permission ... or try not to see you hehe Anyway, again thank you very much for all friends, we are at your disposal for any questions or anything you want. A hug from Spain

I tried to find you on Facebook and I got a Russian Intelligent page and all kinds of other companies and groups but didn't find you. Is there anything distinctive about your picture? Can you send me a link to it? Muchas Gracia
