_____

The sonic graphic on my software is very symmetric with the hills and valleys. I don't know if that means anything, I've just never seen that before. It sound to me like someone doesn’t want you there.

_____

I asked my son to listen and he hears "Leroy". I used different headphones and I here Leroy also.

_____

You know I think you're right about the "Leroy" or maybe "Leave us"... But "Leroy" sounds closer.

Also I've noticed that the left site has it much stronger than the right side.
