We were in the chappel of an old poor house and there was no one else in the building. We didn't pick up on this until evedence review. Hard to hear so Crank it up. Very short segment cropped out of the night long visit Many more EVPS were heard through out the night. A great night of spirit hunting.

It was rather awakening to find this hidden away in the back ground noises. It was missed the first time thru the investigation with the earphones on. It was caught when ran thru the external speakers with the volume turned up.

Thanks again MysticTamer for the reply.
