I put my volume control all the way up to 100% and it almost sounds like someone crying out "mama". Again, it's too soft to really make out.

ladyflash, I thought that I was hearing mama as well. I was standing in front of this grave of a 3 year old girl that was murdered in 1893. There were only two other people there and they were at the other end of the cemetery. We thought she was the little girl that we kept picking up on evps at the community theatre but after a lot of research our timeline didnt match.

Thanks everyone for your input!
