This is part of my video report on a private house and focusses on the intial interview i recorded when first visiting the client. The tv in the lounge suddenly grew louder and there was no obvious reason (remotes etc). I thought I had caught a great evp which just shows that even a seasoned investigator can be fooled. Took my daughter to spot why - can you?

_____

how about the tv advert for Laboratoire Garnier? The 'take care'come s from the ad
