Uploading EVP's - Suggestion

Posted by crystalcross - 05 Apr 2011 01:31

_____

First off I want to thank everyone for uploading EVP's to this site. It really is what the site is all about. Sharing information from all sources.

I would like to ask though that if you upload an EVP, you can upload the processed or enhanced, and cropped version. But also please upload a few minutes of the original so that we can hear the context.

A single sound-byte of an EVP without the context of where it was recorded is like seeing the steering wheel of a '57 chevy. Its part of a beautiful thing, but you can't really enjoy it as a whole.

==========
