EVP #1 CLEAN_GirlVoice.... (Completely unedited, but utilized noise reduction with Adobe Audition)

"...I Can't Stop This....."

EVP #2, "....Help...."

Wow, excellent EVP's. Thank you for including the entire segment.

What kind of equipment were those recorded with? Digital recorder?

I use Olympus VN3100PC digital voice recorders and I love them! I haven't found another type I'd rather use. You?

I actually have a little tiny audio/video keychain recorder which is high-def, and has amazing audio clarity. I use that instead. Its cheap (under $12) and it has a low light CCD HD camera built in so I get video with the audio.

It uses a microSD card so that I can save up to 8 gb on the card before I offload. And its small enough to where I can fit -5-6 of them in my pocket for easy access.
