Gettysburg EVP

Posted by rockinnole - 11 Nov 2011 17:25

_____

This EVP I captured in August of this year while staying at the Tillie Pierce House Bed & Breakfast in Gettysburg. My friend and I were the ONLY ones in the house. At the time this occurred I felt something pressing down on my legs and holding them. This house was used as a field hospital for amputations in the civil war. All through the night we heard footsteps and banging etc. You can hear my friend snoring and me breathing heavy out of panic lol Right towards the end u will hear a male voice. I sent this to Sergey from PRS and he has validated it is real. Might require headphones to hear. Not going to say what I think he's saying....please let me know what u hear. The other evp is footsteps and banging.
