On the second EVP, I hear several things. Very interesting, the first that sounds like a laugh I'm actually wondering. I removed the noise, made it louder and cleared it up a bit and here's whet it is:

So then I though, that sounds strange and tried playing it backwards. Interesting. Can't tell if it makes more sense forward or backwards.

So then I started to listen farther down in the audio and this is towards the end and sounds like "Leave, NOW!"
