Hey, I hope you don't mind. I edited your original post to insert it into the document (used the "INSERT" function) so that it can be played in the embedded player.

I'm going to review it in just a minute as well.

Oh, I thought maybe this is what they were talking about?

Could you please let us know where the area on the recording is that you're thinking may be an EVP?

it does sound like that he says it's very bright out here, so I can't make it out if he is saying bright or behind, this is way cool ..
