interesting orb photo and scratch photo

Posted by ghostman50 - 01 Mar 2012 19:59

_____

this pic was taken at montrose cemtary while there investagating some people showed up wanted to take a pic with one of our investagtors if you look right over the top of the young mans hand you can see a orb that if you zoom in looks like a form of a face the second pic is of an investagator that was scratched that night

_____

I wonder if the orb could be the flash reflecting off the circle on the young man's shirt? It's about the right size.

The scratches are interesting, though.
