_____

I have numerous amounts of evp's from this place. I am baffeled by what all goes on while investigating. I won't post every evp but i will do numerous forums to try and share the majority of what i have gotten. Still only half done with review.

_____

Are these all EVP's or is some part of it conversation at the time of the investigation?

_____

It is conversation there were 5 of us so there is some voices. We talked normal so we didn't mix any evidence with our whispers

Most of them are named from what i felt i heard. So look at the wave name if your not sure and see if you hear the same thing i did. This is truely my favorite place. We will go there and do a investigation.
