Sept 17th 2011 Investigation - Ghost Box Session

Posted by crystalcross - 03 Oct 2011 00:54

_____

Since there has been a great deal of discussion about GhostBoxes and Demonic or Inhuman spirits I figured it was an excellent opportunity to extract this Ghost Box session from our recent Sept 17th investigation at a private location.

The location was reported to have extreme activity which was hounding a family. Our sensitive Maria at this session had a prior sessions at the location and reported there to be multiple entities some of which were human, but one was possibly not.

Towards the end of the investigation we elected to make use of the GhostBox to see what the results would be. This is the complete voice recording from that session un-edited and in its entirety. The session in this record is 17.5 minutes out of a 2 hour recording.
