Videos From Our Recent Cases

Posted by techguy32 - 04 Oct 2011 15:36

Hi All,

New here, My name is Steve and work on the tech team for Southern Paranormal UK (SPUK) I also do our EVP and audio work as well as running the teams youtube channel.

The channel is a new project for us and we are now looking to make investigation review videos from each of our cases.

We have put a few videos together to get started as well as a full investigation review from a recent return investigation to Moot Hall in Bedordshire. This building is a 15th Century Market Hall and it always provides some outstanding EVP results.

Anyways have a look at what we get up to and if you like what you see feel free to friend request us and or subscribe.

We have some very exciting investigations lines up and later this month we are off to Ireland.

Here is the link ..
