dust ,water, or spirit you judge ORB PICTURE

Posted by norman glasser - 07 Mar 2012 17:54

_____

This particular house has had at least 3 suicides that I know of. it remains abandoned for good reason. the first picture was taken before I asked spirit to show themselves. the second only moment later is what I believe are spirit energy. We repeated this process for several days with the same results. at the time we would call it conformation not evidence over the next few weeks I will show you much more if there is interest. I feel that in order to obtain spirit you have got to be open to spirit and it takes practice in order to build your energy.
