Thanks, Joel for the very interesting and thorough article. From my perspective, I'm very glad to hear that you greeted the spirits on the property and thanked them. That cordiality is not something we see enough of. I do think a lot of the orbs captured are simply dust or moisture. Not that I don't think something is there. I definitely sense that something is. Too bad as you said there is a lot of road noise. I think you would be able to capture a lot of recordings otherwise. You still might if you plan on going back there.
