private investigation in Kentucky
Posted by normanglasser1 - 28 Aug 2012 12:33

_____

This picture was taken in the basement of a business that claims that the spirit of a young man is present that was killed in a car wreck a few years ago. He has been spotted by many of the workers. I was able to take many pictures. I finally got the nerve to approach him as I got closer he faded away. I was the only one that was in the basement. retrieving my recorder. I have found that I collect the best data before or winding down the investigation. Is there something to it?

_____

Really impossible to tell with the amount of camera motion blur.

_____

a lot of the burr you see is actually dirt on the vehicles and the floor. Where he is standing is where his car was kept while they investigated the accident that took his life. This was told to me by the owner and he did recognized the figure standing. I asked him to describe the young man before showing pictures. I will show one more pictures the rest is going into my book that I'm writing.

_____

It is really hard to see anything distinctively, are you referring on the left side of the far right vehicle?
