spirit painting

Here is a painting that I painted in the last two days. As I was going through and seeing what was appearing, I found myself crying and feeling very depressed. As I asked who was with me, I found that a 15 yr old girl named "Catherine" was there.

She had committed suicide many years ago. I realize that it was her feelings that were upon me. So attached to this is Catherine's Painting, hope you enjoy it for she wishes to paint more.
