Hot ! Hot ! Hot !

Posted by Chris1GCPI - 12 Jul 2011 23:36

_____

Good grief Charlie Brown! Is it hot enough for everybody!? We've had triple digit temperatures for the past few days with heat indexes from 105-113 degrees! I feel like I'm about to melt into a blob.

Anyone else out there trapped by this heatwave?

If you are, please taken the necessary precautions against heat stroke and other heat related problems.
