Closing a Vortex

Posted by CleParanormal - 26 Aug 2011 02:59

Anyone know or have any links about closing a paranormal vortex? Got a real interesting case and I have a feeling I'm gonna have a vortex to deal with.

CLE,

I'm sure there are probably some resources on here who can help. But I would ask for some additional information. What makes you think there is a vortex? How did it get opened? Do you have some history on the situation?

I'll try to contact some of the resources I know personally to try to help.

Thanks!
