to my physic friends..help

Posted by sixsense - 15 Sep 2011 19:09

Early this morning at 5:30 I got a text from my son. his name is Eric .it said, If your awake call me asap...I called him as soon as I woke up. I have been calling him ever since. It is now 4:00pm and he has not returned any of my calls. I called the hospitals, but had no luck there. I have tried to pick up on him, but I'm to close to the situation and I can't get anything. Please if you can help me find him. I need to know what is going on...I really need all of your help..thank you...Six..

I finally heard from Eric. He's fine. Thank god, but now my nerves are shot. just thought you would want to know. Don't know why.

Lori, I don't know how far away you live from him but if you can't, please have someone else check out where he lives.
