AutoStart featured Video on the Front Page

Ok, I'm on the fence. The Auto-Start featured random video on the front page, is it a plus or just plain annoying?

Please chime in so we can decide whether to keep it or not. After all, the site is for everyone to use. If its not a "Liked" feature then we can remove it. Would it perhaps be best if it were not auto-start?

Please complete the attached poll. Much appreciated!
