Wondering about animals

Posted by kirlybab - 08 Feb 2012 01:00

_____

I have seen them, but have never heard of one actually being captured on film....

Anyone know of any documented photos or videos of animal spirits???

I have a couple of believers I know who are particularly interested in ones of dogs or horses.

_____

I always wondered that too. I always feel "knuckles" around. Although I have never seen his spirit but I wondered if an animal's spirit has been caught on film or vid. I'm sure there has to be some kind of evidence out there.

_____

Many believe animals do not have souls, therefore can not leave spiritual energy behind. I FIRMLY disagree and was told by a medium of a Red Roan horse that dearly missed his owner. I did not have a horse but my husband did (this was before I met him) and it was indeed a Red Roan. He just about fell off his horse when I told him...GET IT? 'fell off his horse' ...meh anyway...

I haven't seen one in film that I have personally investigated.
