Check this out taken @ Indian Burial Ground

Here is a mid- contrast lightening shot

It was really dark, but to me it looks like a girl(?) sitting on a dog maybe?

here it is lightened max

What do you guys think?

Oh.. By the way. The Episode I am in aired April 6th and will rerun on the 13th and the 20th on the travel channel...ghost adventures. If anyone is interested in watching. It was a personal and rewarding investigation for me and brought me a lot of closure ;o).
