This image was sent by a Twitter follower "XPEMX" and it was asked that we analyze it.

Hi, I took this picture of my partner in a Chinese Resturant and I would swear that there was no one behind him when I took it. What do you think is around his head? Thanks for answering me on twitter best wishes pem x

Here's the result. I have to tell you, I was so stoked when I first saw this picture. It looked like the best photograph of a black mass I've seen in a long time. I didn't see how it could possibly be anything else. It appears to be hovering behind the man in the foreground. But when I focused in on that area and then increased the brightness and contrast to a point where the dark areas were a bit more highlighted some more detail came out.

Wow, it looks like there are two images standing behind him. Very interesting.

I'm pretty sure its just two people standing behind him. Thats why I outlined it in red.
