I see the full body apparition standing between the buildings right next to the one on the left. Cool pic

Is this what you're referring to?

Could be a full-bodied, but could also be a dark area behind the trees.

Kinda looks like a shadow person. Difficult to tell in a single frame.

I was actually looking at the area between the 2 buildings. There's like some type of fencing connecting the 2 but at the left of that there looks to be a piece missing or something and right behind it in the pic that's where i'm seeing it. Directly to the right of the building on the left. I'm truly sorry if i sound confusing.

Also found this after looking again, to the right of the house. Its a vapor figure, looks to be tall, and almost seems to look like a Spanish Conquistadore.
