Hi Philwhi54

Its an interesting image that you have posted there , but it would be great if you could give us some more information about the picture where it was taken, what camera you took it with, weather conditions, temperature, humidity ect.

There are several explanaitions that could come into question for this picture.

Hope this helps.

This is one of those photos that without seeing the original is impossible to reach any conclusion. It can be anything, or it may be nothing ...
