Putnam, CT last night

Posted by tyrstag - 25 Sep 2011 18:16

_____

These pics were taken about 30 seconds apart. Out of all the pictures I took. This was the only one that had that mist.

This was in that attic of a house built in 1862. The temp in the attic was 78F, the air was dead still, no breezes, very little dust floating around.

==========
