Is it me, or is there a face right in the center of that mist. Its looking to the right and looks like a 1940's to 1950's period look.

I'm going to crop and zoom that area and increase the brightness so you can see it.

There may be a total of 3 faces. I see one in the center, one right of center, and one toward the top left hand corner [all possible faces].
