Well It Was Taken Around Jan Last Year 2010.It was a very tricky case with demonic activity but at the same time the apparition of a child being seen and seeming playful.As we got into it with the demonic activity i was able to prove it as a demon,a specific demon actually.the demon was portraying itself as the child being manipulative and malevolent causing harm and torment to the child of the family who sought our help.Any Other Questions feel free To Ask

Thanks so much for the background, great information. I'm glad to see that we have a group specializing in demonic or inhuman entities. Many will not enter that realm, and its good to know the groups that will in case someone is seeking help in that area.

---

your welcome no prob,i will say this your sanity will be tested and if you do not know what you are doing you have no business messing with it because there are many risk and dangers and you can make it worse if you don't know your field but we enjoy what we do and if we can help someone especially in these types of cases its a great feeling
