From the look of it, there is a TV on over on the left side. You can see it reflecting in the sofa, and also in the glass of the table.

_____

But this glow is further back its along the hall way ive tried to take others with the tv on and it does come up like that

_____

with a glass door and glass table alone will cause multiple shadows, add the other reflective items and you get prisms, odd shadows, etc. Very hard to say what is what, but debunking is where it leads me
