Haven't done this before. Hope the pics show up. My family has always called this "the ghost picture". It was taken in Kentucky in the late 20s. The ghost has always been there.

It is a pic of my mother's family before she was born.

Ohh wow, there is a very strong energy coming off this photo and what a strong family resemblance too. Feeling grandma or great-grandma. What a lovely photo. Thank you for sharing.
