The Meaning of Life

The time to realize the meaning of life is now, but you have to believe in the real life: and there can be but only one kind of real life; the life of Spirit. But how can we be certain that the world of the spirits exist? How can we be certain that the human is more than just ‘human?’ How can we show that the spirit exists? The fact that more than two thirds of the world’s population believes in God doesn’t prove that spirits exist. The fact that there are millions of people on Earth involved in spiritism doesn’t prove anything as far as the existence of the spirit is concerned. The fact that Allan Kardec existed and became the father of spiritism doesn’t tell us anything for sure. This is a question of belief. You must believe.

Truly, there is only one way to know for certain: one has to die. Of course, once one is dead one will for certain see the real truth, but the rest of us will still remain in the flesh and therefore ignorant of that truth still. AND THAT, spiriton of my love, IS THE REAL PROOF that the spirit does exist! This is true because reality is based on belief; for the meaning of life is this: the universe is eternal and infinite. Sky Lord has received proof from Allan Kardec himself to show to the whole world that the universe IS eternal and infinite. Once that is accepted, the meaning of life becomes quite clear to us. Just think of the following drawings as being God and the Entire (universe):

LIFE HAS ALWAYS EXISTED! AND THERE CAN ONLY BE ONE LIFE FORM CAPABLE OF SUSTAINING INFINITY AND IMMORTALITY. THIS LIFE FORM HAS GOT TO BE ABLE TO ENDURE ETERNITY. AND WE ONLY SUSPECT OF TWO LIFE FORMS THAT COULD BE CAPABLE OF DOING THAT: GOD AND SPIRIT.

REAL LIFE HAS GOT TO BE SPIRIT! This must be the case because we exist. And the fact that we do exist is real. Therefore, if we exist as us, in an eternal and infinite universe, then it follows that the human in us is just a vehicle Life uses to express Itself in this dimension of the Entire God that Sky Lord is calling the Positive Infinity Universes Field, or PIUF.

To fully comprehend the meaning of life according to the channeling work of Sky Lord, one must read AND UNDERSTAND his work. One must understand that Spirit is not a part of life but that Spirit is life itself: the real life, the eternal and infinite and immortal life that you have now as you read this post and that no one can ever take away from you simply because you are a spirit first and foremost.

You were born and raised under the blindfold that the organism is the real life: That when the flesh ‘dies’ you die and there is no more existence for you. This is not so and very much a big mistake! Organic life is just a mirror of Spirit, and the way in which the Entire God expresses the reality of the Negative Infinity Universes Field onto the world of the Positive Infinity Universes Field in which the human animal lives; here, where we are and existing temporarily in the flesh and thus permeated by and shielded with Spirit - you. That to say, the real and immortal you.

Or maybe you do believe that there is ‘life after death.’ But you have no idea as to what to actually expect once you cross over. The problem is still the same: WHAT IF…

We humans have become accustomed to understand life as an organic invention of nature or as an

organic creation of God, but the truth is another and a more sublime reality: life is eternal and the living spirit is immortal. Lord Elleon, Tashunka Curly and Tu-Ka-Lu-Lu-Ta have used Sky Lord as a vehicle in order to show this as true. You have a living immortal spirit, but the truth is that a living immortal spirit (the real you) has an organic vehicle that was prepared a long time ago in order for you to experience a temporary existence in the PIUF, here where we are.

Form all of the above we learn one important thing: that the real religion, the true religion of Man must be the one closest to his true self, and that true self is Spirit. Therefore, this religion needs to be Spiritism.

So, as you can see, that is, if you can see, Spiritism is an idea designed to associate the human mind with universal nature.
