Think I have a spirit attached to me...

_____

The activity started about a month ago. I was leaving for a trip and just couldn't sleep the night before. The next morning I had an extremely hard time getting up. I felt a slight tug on the back of my shirt. It was gentle, yet hard enough that it got my attention. I laid my head back down and then I heard a male voice say my name. Needless to say, I got up and started to get ready to leave immediately. While I was away, I heard this same voice again. A few other things have happened both at home and when I've traveled. I'm not sure who it is exactly. I haven't seen anapparition yet. I don't recognize the voice. I'm not afraid of it because it hasn't doesn't anything to hurt myself or anyone around me. Just curious as to who it is and why they're so attached to me. I hadn't any paranormal experiences for years until now.
