suggest a new forum section
Posted by Grupo Alpha - 14 Jul 2011 15:19

Hello friends

I had a small idea and wanted to consult with you who you think. We all have idols in this mystery, great personalities who are dedicated and who have presented their ideas by opening new avenues of research for people like us, masters of parapsychology, what you seem to create a new section where we could retrace the biographies of these people? I think it would be very interesting. Hugs to all and thanks

I think it would be a great opportunity for everyone to know you better write the biography of the masters of which we have learned.
